

AFFAIRS OF THE CITY.

Meeting of the New Council
Awaited with Interest.

NOMINATIONS EXPECTED.

THE MAYOR NON-COMMITTAL AS
TO HIS APPOINTMENTS.

Progress on the Joint Building—Engineering Department—Food Inspector—The City's Health—Treasurer's Department—The Ghost Failed to Walk.

The Tuesday night's meeting of the city council is awaited with no small amount of interest by the general public and with intense anxiety by the office seekers, of whom there is ample sufficiency. At the next session of the council it is expected that the mayor will submit a number of additional nominations and that some action will be taken on those now on the table. The members of the council are said to be of the opinion that a number of the city officers can be consolidated and this opinion is more than likely shared in by the mayor, who has always favored the greatest economy that it would not redound to the injury of the city. Very few changes are looked for in the fire and police departments, but a number of radical alterations may be made in several of the other departments of the city's service. As usual, the mayor remains non-committal on the subject of appointments and the naming of men for the various offices is simply the wildest guess work. One of the office seekers are of the opinion that they have a pull and are the proper persons for the place, but there may be a great difference of opinion between themselves and the chief executive of the city.

The Joint Building.

Very satisfactory progress has been made on the joint city and county building during the past week, although the cold weather has hindered work somewhat. The outside stone work is almost completed, however, and the carpenters are enabled to work nearly all the time, despite the inclemency of the weather.

According to the report of the city auditor, completed yesterday, the magnificent structure has cost up to the first of the year, \$460,563.85, of which the city pays an equal proportion. It will require fully \$500,000 to complete and furnish the structure and the total may run considerably over that.

Engineering Department.

The city engineer's department has just completed and filed in the office of the city recorder the map of the new plat authorized by the council known as plat K, which includes land lying south and east of the capital grounds between State street and City Creek canyon. The department has also been successful in securing the record books of plats, blocks and streets, and in indexing notes. No field work has been done and the entire field force has been discharged.

Street Department.

The street department during the week has been engaged at the same old work, putting in crossings, removing snow and mud and cleaning crossings. Some walks have been put in at the intersection of State street and Sixth South and First South and Second East.

Food Inspector.

Until the appointment of his successor has been confirmed, Food Inspector Randall will hold down his seat and continue on the same line. Last week he made 362 inspections and condemned as unfit for food, 155 pounds of poultry and 50 pounds of game. Four samples of milk were examined.

The City's Health.

The cold weather is keeping down the contagious diseases and for the seven days which have just passed but one case of diphtheria and one case of scarlet fever were reported to the health commissioner. One death occurred from scarlet fever. During the week nine burials and two stillborn permits were issued. The number of births as against that for the previous week was considerably increased, fifty-seven being reported. Of the new babies twenty were males and twenty-seven were females.

Treasurer's Department.

This has been a fair week with the special assessment department of the city treasurer's office and Collector Hillier has taken in \$13,500. The amount includes \$8,500 West Temple street paving assessment which came in one lump yesterday afternoon, being paid in warrants. Special paving taxes are

delinquent on State street and West Temple and sewers on G street, Sixth East between Brigham street and First South. These delinquents will be advertised in the very near future.

The Ghost Failed to Walk.

None of the city departments were said off yesterday and the door of the auditor's office was adorned with the sign, "No cash today." The rolls which were passed yesterday amounted to \$7,500, but this represents but half of the back rolls, there being now over \$15,000 due city employees in order to bring them up to December 30.

NEWS FROM RAWLINS.

Sheep Suffering On Account of Deep Snow—General News.

Rawlins, Wyo., Jan. 5.
Editor Herald:

Winter is here in good shape. It has been snowing and blowing nearly every day this week and the snow is several inches deep upon the level, to say nothing about huge drifts. Reports from the ranges are favorable, except on the upper Medicine Bow, where sheep are suffering on account of deep snow. On Snake river, ranchmen have begun feeding.

The sensational reports sent out from Lander relative to a stage load of passengers being lost in the storm of a week ago are false. No stage was lost. It being simply delayed on account of deep snow and poor stock. This same cause is the reason for delayed mails from the south.

New Year's day was very generally observed. All the business houses closed at 10 a. m. A large number of ladies kept open house and received callers during the afternoon. The list of non-commissioned officers for battery "A" were appointed Wednesday evening as follows: Quartermaster, J. O. Dodge; Second Duty Sergeant, W. W. Matthews; Second Duty Sergeant, W. W. Dyer; Third Duty Sergeant, William S. Dow; Color Sergeant, C. E. Dodge; First Corporal, George A. Tanner; Second Corporal, J. M. Redabaugh; Third Corporal, H. J. Zipp; Fourth Corporal, J. F. Egan; Drill Master, J. G. Kite.

These officers will only hold until the company is drilled and equipped, when new officers will be elected. M. W. Dillon is now working twelve men in his coal mine three miles southwest of town. He finds a ready home market for all the coal he can deliver at \$11 per ton. Some fifteen teams are employed in hauling in the coal, thus keeping a nice little sum of money in circulation at home, which would otherwise be paid the railroad company for coal.

Work is being vigorously pushed upon the Consolidated Copper and Silver Mining company's tunnel, northward from town. The tunnel is complete a hundred feet and cut the ledge within the next thirty days.

Senator Hearst's Widow the Young Girl's Friend.

Probably the richest widow in Washington is Mrs. Hearst, whose husband was the rich senator from California, when he and his colleague, Senator Stanford, were the wealthiest pair of senators representing any state.

Mrs. Hearst made herself so greatly liked that now when her palace on New Hampshire avenue is closed so much of the time Washington people regret it. But there is always the hope that it will be opened "next season." Mrs. Hearst has a habit of suddenly appearing in the capital and opening her house for a few weeks, or perhaps a month. Nobody knows just how long she will stay, and she is apt to leave as suddenly as she came. But Washingtonians know that when she comes, Mrs. Hearst will consent to keep her beautiful house open for an entire season.

If Mrs. Hearst has any sad it is probably in making other people happy and the "other people" refers especially to young girls.

One season Mrs. Hearst invited five girls to spend the winter with her. They were not all able to indulge in all the dresses they needed for a season in such a gay house, and Mrs. Hearst made these five girls supremely happy by insisting on their making believe to be her daughters for the time being, and let her furnish each with a lovely season's trousseau.—Chicago Record.

For sick headache, caused by a disordered stomach, Ayer's Cathartic Pills are the most reliable remedy. "My mother first recommended these pills to me, thirty years ago. They are the mildest and best purgative in use."—S. C. Bradburn, Washington, Mass.

A Sound Liver Makes a Well Man.

Are you bilious, constipated or troubled with jaundice, sick headache, bad taste in the mouth, foul breath, coated tongue, dyspepsia, indigestion, hot, dry skin, pain in back and between shoulders, chills and fever, etc.? If you have any of these symptoms your liver is out of order and your blood is slowly being poisoned because your liver does not act properly. Herbin's will cure any disorder of the liver, stomach or bowels. It has no equal as a liver medicine. Price 75 cents. Free trial bottles at Z. C. M. I. drug department.

WEEKLY MINING REVIEW.

The Market Is Still on the Decline.

ORE AND BULLION OUTPUT.

A SLIGHT DECREASE OVER THE
CORRESPONDING WEEK.

The Mammoth Closed Down Yesterday and Operations May Not Be Resumed For Some Time—That New Mining District—Copper Plant Suits.

There has been little change in the mining situation during the past week and the same general stagnation exists as for the several months last past. Mining men, both owners and operators, are looking anxiously forward to the time when Congress takes up the several proposed measures which will affect the mining industry of the west and, while there may be differences of opinion, all hope that something will be enacted into laws which will injure the west, but rather that something will be done looking to the restoration of silver and lead to their old places of honor.

Owing to the continued depression, the lead market is on the decline and yesterday the metal was quoted at \$3.10, its lowest mark within sixteen years. Should the price fall below that figure many of the properties in this territory which produce lead will be forced to close down.

During the week good reports have been received from Mercur, where a number of exceedingly rich strikes have been made. Shipments are being made with great regularity from the mines of the camp and the number of men at work has been considerably increased. The Mercur Mining company has declared a dividend of \$25,000. The district is attracting much attention from Colorado and the east and the indications are that within a short time there will be plenty of capital seeking investment in the properties of the new gold fields.

The ore and bullion output for the week fell off slightly from the total for the week previous and aggregated but \$189,331. The week's summary is as follows:

T. R. JONES & CO.

Monday holiday
Tuesday, ores.....\$13,000
Tuesday, bullion.....10,900
Wednesday, bullion.....3,800
Wednesday, silver and lead ores.....3,600
Thursday, bullion.....7,500
Friday, bullion.....7,200
Friday, silver and lead ores.....3,500
Saturday, ores.....6,400
Saturday, bullion.....3,300

Total.....\$57,200

WELLS, FARGO & CO.

Monday holiday
Tuesday, Mingo bullion.....\$12,175
Wednesday, Pennsylvania bullion.....3,477
Wednesday, other bullion.....1,700
Wednesday, gold bar.....10,000
Thursday, Pennsylvania bullion.....3,231
Friday, Pennsylvania bullion.....6,002
Friday, Ontario bullion.....17,223
Saturday, Pennsylvania bullion.....2,980

Total.....\$56,781

McCORMICK & CO.

Monday holiday
Tuesday, Hanauer bullion.....\$2,500
Tuesday, silver and lead ores.....2,450
Wednesday, ores.....17,000
Thursday, Hanauer bullion.....4,000
Thursday, silver and lead ores.....12,400
Friday, Hanauer bullion.....4,000
Saturday, silver and lead ores.....15,500

Total.....\$56,250

T. R. Jones & Co.....\$57,200

Wells, Fargo & Co.....\$56,781

McCormick & Co.....\$56,250

Total.....\$180,231

THE MAMMOTH CLOSED DOWN.

It Is Caused by the Action of Property Owners.

The Mammoth mine and mill were closed down today, owing to obstructions by property owners whose claims are crossed by the tramway from the mine to the mill. Superintendent Robinson has announced that work will not be resumed until the parties concerned from their position and as neither party will agree to terms, the chances are in favor of a long lay off.

THAT NEW MINING DISTRICT.

A Letter From Barney Quinn on the Subject.

Bingham, Utah, Jan. 6, 1894.

To the Editor of The Herald:

Seeing in your paper something about organizing a mining district at Lehi,

from part of this West Mountain Mining district, let me say I don't see how that can be done legally, as this district is on record in the surveyor-general's and the land office in Utah and at Washington, D. C. A copy of our district by-laws, or reference to them, is filed with each patent applied for and as the by-law contain the boundaries of the district, I do not see why or how they can form a new district out of an old one which has been established since the 17th day September, 1883, and has been recognized as such for the last thirty-one years, the by-laws being in full force and effect up to and at the present date.

I have heard of and seen men jumping mining claims, but I never heard of any man or men undertaking to jump a whole mining district until now. I should judge that those fellows are from Colorado. Respectfully,

B. B. QUINN.

Recorder W. M. M. District.

THE COPPER PLANT SUIT.

Colonel Estes Says It Will Not Affect the Work.

Speaking of the suit which has been planted against the Salt Lake Copper company and a number of others, full particulars of which were given in The Herald yesterday, Colonel Estes of the company, stated that it would have no effect whatever upon the work being done at the plant, but on the contrary the buildings would be pushed to immediate completion in order that the work might be started up by the time promised. The colonel does not consider that the company is in the salt, inasmuch as it has already done more than the contract calls for, having up to date expended \$375,000 on the plant and still has \$225,000 more to expend before the work will be ready for operation. The deed for the forty acres guaranteed to the company is in escrow and would have been filed some time ago. The committee having the matter in hand having notified the company that the provisions of the contract have been complied with on the part of the company, but for an unavoidable delay. The case will be heard on Wednesday when it is expected that the matter will be fully settled.

Mining Notes.

Silver, 67½. Lead, \$3.10.

McCormick & Co. received yesterday: Ores, \$13,500.

Wells, Fargo & Co. received: Pennsylvania bullion, \$2,980.

T. R. Jones & Co. received: Silver and lead ores, \$3,400; bullion, \$3,300.

Superintendent W. H. Thomas, of the Niagara company, was out from Salt Lake yesterday looking after the Niagara prospects.—Bulletin.

Tom Mayne's team have been quite busy for the past few days hauling down a lot of fine carbonate ore from the Victor mine for shipment. There was three carloads in the lot.—Bulletin.

Captain J. R. DeLamar left yesterday for New York. He expects to return to Boise next spring. During his stay in the capital Captain DeLamar received propositions from a number of men owning gold properties and he has authorized experts to make reports on several of them. It is said none of the properties are near Boise.—Statesman.

Articles of incorporation of the Pacific Mining company have been filed with Secretary of State Curtis. The capital stock is \$50,000 and the company's headquarters is at Pocatello. The incorporators are E. E. Calvin and V. C. Roeder, of Pocatello; W. H. Remington and F. W. Volger, of Pocatello; Boise Statesman.

A Cosmopolitan City.

Nine-tenths of all the elective offices in Cook county are now held by naturalized citizens.

The sheriff was born in Canada. The county treasurer was born in Germany.

The president of the county board was born in Germany. The clerk of the criminal court was born in Germany.

The clerk of the superior court was born in Ireland. The president of the drainage board was born in Germany.

The county clerk was born in Denmark. The county coroner was born in Ireland.

The city treasurer was born in Ireland. The city clerk was born in Germany. The city collector was born in Germany.

The corporation counsel was born in Bohemia. The new postmaster is a German.

Two-thirds of the city council and all of the police force were born in Ireland. Then why wouldn't it be fair politics to give the mayoralty nomination to a West Side American?—Chicago Globe.

Christmas trade is booming at the elegant establishment of J. H. Leyson Co., the leading jewelers.

For Over Fifty Years Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

THE SCHOOL MONIES.

TERRITORIAL COMMISSIONER'S APPOINTMENT.

Auditor Caine Is Now Prepared to Draw the Amounts on Orders of County Treasurers.

The territorial school commissioner has just completed the apportionment of territorial school monies among the different counties, this being the first distribution of the 1893 taxes. Another apportionment will be made on March 31.

Territorial Auditor Caine yesterday received the list and is now prepared to draw the amounts upon the orders of the county treasurers. The apportionment is made on a basis of \$2.10 per child of school age. There are reported 71,709 school children in the territory and the amount to be distributed is \$150,588.90. The apportionment was made as follows:

County	Child	Amount.
Beaver	1277	\$2,683.70
Box Elder	225	\$4,725.00
Cache	4365	\$9,166.50
Carbon	1516	\$3,233.60
Concha	255	\$5,395.50
Emery	2046	\$4,296.60
Garfield	1118	\$2,347.80
Grand	145	\$3,045.00
Iron	557	\$1,169.70
Juab	156	\$3,276.00
Kane	1,442	\$3,028.20
Millard	1581	\$3,320.10
Morgan	652	\$1,369.20
Plute	534	\$1,121.40
Rich	634	\$1,331.40
Salt Lake county	8806	\$18,492.60
Sandwich	1234	\$2,591.40
Santa Juan	144	\$3,024.00
Snapet	4342	\$9,118.20
Sevier	2484	\$5,216.00
Summit	2922	\$6,136.20
Tooele	1268	\$2,662.80
Uinta	144	\$3,024.00
Utah county	7794	\$16,464.00
Wasatch	1853	\$3,881.20
Washington	1453	\$3,041.70
Wayne	681	\$1,430.10
West	144	\$3,024.00
Ogden City	3885	\$8,158.50
Total	71,709	\$150,588.90

Recipes for Cooking Game.

To Choose a Young Prairie Chicken—Send the under bill. If it is tender the chicken is young.

Roast Pigeons—Never roast pigeons unless they are young and tender. After they are well tied in shape, draw the skin over the back, tie the skin of the back over the breasts, and then draw the skin over the back of the pigeon. Fill them on a spit and roast them before a brisk fire until thoroughly done, basting them with butter.

Pigeons Broiled—Split the pigeons at the back and flatten them with the cut bat. Season, roll them in melted butter and bread crumbs, and broil them basting them with butter. Or cut out the breasts (fillets) and broil them alone. Serve on thin pieces of toast. Make a gravy of the remaining portions of the pigeons and pour over them.

Broiled Quail—Split the quail down the back, wipe dry with a damp towel, season with salt and pepper, rub them with soft butter, and dredge with flour; broil ten minutes over clear coals, with the inside toward the fire. Serve on buttered toast garnished with parsley. Woodcock and all small birds may be broiled in the same manner, and are delicious and nourishing for invalids.

Quails Parboiled and Baked—Tie a thin slice of bacon over the breast of each bird; put the quails into a baking dish, with a little boiling water; cover it closely and set it on the top of the stove, letting the birds steam ten or fifteen minutes. This plumps them. Then take off the cover and the bacon and put the birds into the oven, basting them often with butter. Brown nicely, and serve with currant jelly.

Quails Roasted—Cover the breasts with very thin slices of bacon, or rub them well with butter; roast them before a good fire, basting them often with butter. Fifteen minutes will cook them sufficiently if they are served very hot, although twenty minutes would be my rule. Salt and pepper them. Serve on a hot dish the moment they are cooked. They are very good with a bread sauce made as follows:

Roast Birds—Pick, open, and carefully wipe with a clean towel a dozen or more and with a rolling-pin crush the bones quite flat. Season with pepper and salt, spread them over a clear fire, broiling the inside first, and when a light brown turn the grilliron. Serve on buttered toast. Season with pepper and salt and baste them well with fresh butter.—The Home Magazine.

Prairie Chicken or Grouse Roasted—Epicures think that grouse (in fact, all game) should not be too fresh. Do not wash them; never wash any kind of game or meat. If proper care be taken in dressing them they will be quite clean, and one could easily wash out their blood and flavor. Put plenty of butter inside each chicken; this is necessary to keep it moist. Roast the grouse half an hour, or longer if liked thoroughly done. Baste constantly with butter. When nearly done sprinkle over a little flour and plenty of

A LIVELY SCENE.

The Closing of the \$5 Rate Last Month at the Zion Medical and Surgical Institute.

Many Patients Who Were Unable to See the Doctors Can Call During This Month, as This Low Rate Will Be Extended Up to Feb. 1st—All Medicines Furnished Free.

During the last fifteen days of January over 100 patients placed themselves under treatment at the ZION MEDICAL AND SURGICAL INSTITUTE.

This week many have applied for the benefits of the \$5 rate for all diseases. In order to give all an opportunity, Drs. Shores & Shores have decided to extend the \$5 rate for all diseases up to February.

Remember at the Zion Medical and Surgical Institute you have the opinion of two physicians. All medicines for your case is prepared by the doctors themselves, thus avoiding any mistakes. The doctors also repeat that patients intending placing themselves under treatment not to put off until the last week. The last four days of December it was almost impossible for the doctors to treat all, consequently making an extension of the low rate.

REMEMBER by the appointment for treatment this month you are treated until cured for \$5 a month and all medicines furnished free.

Drs. Shores & Shores have practiced six years in Utah. They are well known and successful physicians.

Below will be found a case of more than ordinary interest, that of

Burnie Maden, 938 S. 8th. East Street.

The trouble was first caused by a severe attack of diphtheria, which caused enlarged tonsils. Her mother, who stated the case freely, says:

"My little daughter has certainly been a wretched, yet patient sufferer. Many doctors have tried in vain to relieve her, but all failed until we brought her to Drs. Shores & Shores.

"The enlarged tonsils were very troublesome, causing repeated attacks of sore throat. They would ulcerate, causing a high fever. Often the discharge from the ulcerated tonsil and posterior nasal catarrh was very offensive, causing derangement of the stomach. I consulted many physicians in California and elsewhere. They told me that a surgical operation, removing the entire enlarged tonsil with the knife, was the only course to pursue, but I had a great dread of the knife, and after reading of the success of Drs. Shores & Shores in the treatment of catarrh and throat troubles, I decided to consult them, and after an examination they informed me that no surgical operation was necessary, and that the enlarged tonsil could be removed by making the proper local application. I will say that I placed my daughter's case in their hands and can truthfully say the result has been very satisfactory. I cheerfully recommend the doctors of the Zion Medical & Surgical Institute."

Mrs. Maden can be interviewed at her residence, 938 South Eighth East street, and will verify the above statement.

Zion Medical and Surgical Institute

Located permanently in the Harmon Block, 34 E. Second South St., Salt Lake City, Utah.
